

The development of information and communication technologies (ICT) and the occurrence of the Internet and wireless devices, contributed to the emergence of the new society in which information and knowledge are the most important resource. As a result, there is a growing interest towards the adoption of novel technology in different fields.

The conference focus is to facilitate implementation of Internet and Information Technologies in all areas of human activities. The conference provides forum for discussion and exchange of experiences between people from government, state agencies, universities and research institutions and practitioners from industry.

### Key notes

Papers must be based on unpublished, mature and original work.

The review process will be double-blind peer review.

At least one author of each accepted paper is required to register for the Conference.

## VIII International Conference on Applied Internet and Information Technologies - AIIT2018

October 5, 2018  
Bitola, Macedonia

We are pleased to announce the 8-th International conference on Applied Internet and Information Technologies - AIIT2018, co-organized by the Faculty of Information and Communication Technologies - Bitola, Macedonia and the Technical Faculty "Mihajlo Pupin" - Zrenjanin, Serbia.

The AIIT Conference covers research and application in a variety of ICT fields. It provides an excellent forum for scientists, researchers and practitioners to present and discuss their research activates in a pleasant and creative ambient.

All accepted papers will be published in the **conference proceedings**

Extended versions of the selected papers from the Conference will be published in the **International Journal of Emerging Research and Solutions in ICT**.

### Important dates

August 20, 2018 - Paper submission

Sep. 02, 2018 - Notification of acceptance

Sep. 16, 2018 - Camera Ready Paper,  
Registration and Payment

### The topics of interest include, but are not limited to:

Software Engineering and Applications  
Computer Networking and Telecommunications  
Database Systems  
Information Systems  
Internet of Things  
Data Science  
Security and Cryptography  
Embedded Systems and Robotics  
Computer Graphics and Visualization  
Signal and Image Processing  
Biomedical Engineering  
Computer Architectures  
Digital Design and Prototyping  
Bioinformatics  
Artificial Intelligence  
Applied ICT in Engineering  
ICT in Education  
Management in IT  
E-Services  
Social Networks
